

Superior Strength and Quality

The Mullen® uses leading edge technology for unrivalled strength and stability. Each base is carefully manufactured to achieve a high level of consistency.

- Tested to withstand 560 lbs. (up to 1100 lbs. with additional crossbrace reinforcement)
- Made of solid Glass Reinforced Plastic (GRP) commonly used in cars, aircrafts and boats

AKW's high-quality Mullen® Shower Base products are backed with a limited lifetime warranty, excluding normal wear and tear, in general domestic applications. See product Warranty for details.

Specifications

Mullen® Shower Bases are adaptable to all showering environments.

- Corner and alcove bases available; some corner bases sizes can be modified to fit in a bathroom alcove
- The patented Intergrip® clamping system creates a watertight seal against tile or vinyl floors
- Customizable base models offer flexibility without losing structural integrity

Dimensions	Handing	Base	Code
42" x 42"	Non-handed	Corner	26100
49 ⁷ / ₈ " x 30 ¹ / ₈ "	Non-handed	Corner	26101 L/R
49 ⁷ / ₈ " x 34 ⁷ / ₈ "	Non-handed	Corner	26072 L/R
53 ⁷ / ₈ " x 30 ¹ / ₈ "	Non-handed	Corner	26102 L/R
53 ⁷ / ₈ " x 34 ⁷ / ₈ "	Non-handed	Corner	26107 L/R
58 ¹ / ₂ " x 30 ¹ / ₈ "	Non-handed	Corner	26104 L/R
60" x 32"	Non-handed	Alcove	26113 L/R
60" x 38 ³ / ₈ "	Non-handed	Alcove	26103 L/R
72 ³ / ₈ " x 30 ¹ / ₄ "	Non-handed	Alcove	26108

Mullen® | Shower Base

Mullen® Shower Base

Replacing an existing bathtub or conventional shower has never been easier thanks to the Mullen® shower base.

Both simple and stylish, the Mullen® can be easily installed and adapted to meet individual and bathing needs.

The Mullen® is the starting point for building beautiful bathrooms with enhanced functionality and safety at a price to fit almost any budget.

Level Entry Access

Long gone are the days where a curb was all that stood between the bather and an enjoyable bathing experience. With the option to be inset into the floor for a complete level access experience, or accessible via a gentle sloping ramp, the Mullen® provides an unmatched level of accessibility and usability.

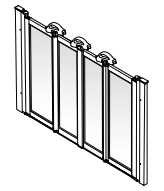

Innovative Design

The Mullen's® cutting edge technology simplifies fitting a shower into an existing bathroom while ensuring the highest safety, security and comfort. Ridges in the pan provide anti-wave technology and enhanced traction. With the ability to be cut on either side or adapt from a corner to an alcove, the Mullen® is able to fit virtually any spacing need.

Barrier Free Shower Components

Mullen® Shower Base
The level access base features a patented grip strip to provide a superb watertight seal. Available in 11 sizes.

Half-Height Shower Doors
Designed to deflect water, allowing a caregiver to stay dry while assisting a user. Available in 3 styles.

Half Height Shower Doors

Half Height Shower Doors restore privacy and make showering enjoyable for those with limited mobility. Set specifically at an appropriate height for caregivers nationwide, Half Height Shower Doors offer a non-invasive option for users to enjoy the Mullen® without the worry of creating a potential hazard of water leaving the bathing area.

Bendy Rail
These shower curtain rails can bend into any position. Supplied with a set of 12 gliders to attach a shower curtain.
